## REFRACTORIES APPLICATIONS FURNACES AND KILNS

### Product Requirements and Characteristics

Vulcan manufacture a comprehensive range of standard and special shapes for hot face and insulation applications.

Product requirements are matched to application characteristics.

#### Application

Bright annealing furnaces

- Hot face lining

Heat Treatment/Carburising furnaces

- Skid Rails reducing conditions
- Skid Rails oxidising conditions
- Hot face linings
- Muffles systems
- Element support systems

#### Recommended materials

Vulcasil HRP56 pressed dense alumina  
Vulcasil HJC10 jointing cement

Vulcasil SRP04 pressed silicon carbide  
Vulcasil SRP46 pressed silicon carbide  
Vulcasil HRP71 pressed dense alumina  
Vulcasil HRP17 pressed dense bauxite  
Vulcasil HRP22 pressed alumina  
Vulcasil SRP49 pressed silicon carbide  
Vulcasil ARP21 pressed alumino silicate

#### DISCLAIMER

Any advice, opinion, recommendation or information is given to assist the use of the company's products but on the basis that the end user must ensure their suitability for the application intended.

In particular the company cannot accept liability for loss or damage which may arise from the incorrect use of its products or from poor workmanship on the part of the user.

Information is compiled from routine quality control testing and does not constitute a specification.

Information is provided in good faith and is subject to review whenever necessary and no guarantee or warranty is implied.
