

VULCAN

REFRACTORIES APPLICATIONS PETROCHEMICAL INDUSTRY

Application

Ammonia reactor lining

- Hot face
- Back up insulation

Titania production units

- Chlorinator pipe work
- Attrition mill liners

Sulphuric acid plants

- Combustion chamber hot face

- Recovery unit boiler plate ferrules

Recommended materials

Vulcasil HRP33 pressed dense alumina
Vulcasil HRP56 pressed bubble alumina
Vulcasil HJC10 jointing cement

Vulcasil SSC08 cast silicon carbide

Vulcasil HRP48 pressed dense alumina
Vulcasil HRP34 pressed dense mullite
Vulcasil HJC04 jointing cement

Vulcasil HRP33 pressed dense alumina

DISCLAIMER

Any advice, opinion, recommendation or information is given to assist the use of the company's products but on the basis that the end user must ensure their suitability for the application intended.

In particular the company cannot accept liability for loss or damage which may arise from the incorrect use of its products or from poor workmanship on the part of the user.

Information is compiled from routine quality control testing and does not constitute a specification.
