The **Investors in People** Standard is a business improvement tool designed to advance an organisation's performance through its employees. It helps organisations to improve performance and realise objectives through the management and development of their **people**.

Vulcan Refractories was awarded investors in people Silver in 2014, we then pursued the higher IIP Gold and achieved accreditation in November 2020. We are very proud to have achieved the gold standard, it has been a great effort by all our people.

Comments from the Assessor

"It was a pleasure to witness your people's passion for their work, their pride and focus on the vision, as well as capture thoughts and opinions, examples and anecdotes". Vulcan has "worked really hard to move the organisation to Gold standard"
